

Legacy® Acoustical Shells

The latest Wenger technology gives you three attractive, effective acoustical shell options to fit your application and budget. The Legacy system can be set up quickly and easily — by just one person. Its mobility allows you to acoustically transform almost any space within a facility into a performance venue.

We pioneered acoustical shell design, so it's no surprise that our honeycomb core panel construction delivers enhanced acoustics to both the ensemble and the audience. When the performance is over, Legacy acoustical shells take down in no time and nest together compactly.

Legacy Acoustical Shell Comparison Chart	Basic	Classic	Select
		 The original design – improved!	
USAGE	<ul style="list-style-type: none"> • Portable shell that allows any space to become a performance environment • Improved projection to the audience 		<ul style="list-style-type: none"> • Portable shell designed to be used primarily with an overhead ceiling system for on-stage use.
WHERE TO USE	Small auditoriums, gymnasiums, cafeteriums and recital halls		Small auditoriums and recital halls
COMPONENTS	<ul style="list-style-type: none"> • Lift mechanism with crank • Acoustical wall towers • Fold down canopy for storage 		<ul style="list-style-type: none"> • Acoustical wall towers • Use with ceiling system for optimum performance
SHELL MOBILITY	<ul style="list-style-type: none"> • Integrated non-marring casters • Moves easily by one person 		
FEATURES	<ul style="list-style-type: none"> • Flat panel design, with tapered or rectangular 36" (91 cm) high canopy • Folds flat and nests for storage • Portable shell on casters • 78 square feet (7.2 sq m) of shell coverage, 7" (18 cm) gap from floor with protruding legs in front of shell • Passes through a standard 36" (91 cm) door opening • Canopy adjusts at 45, 60, 75 and 90 degree angles 	<ul style="list-style-type: none"> • Flat panel design, with tapered or rectangular 54" (1.4 m) high canopy • Folds flat and nests for storage • Portable shell on casters • 90 square feet (8.4 sq m) of shell coverage, • 2" (5 cm) gap from floor • Passes through a standard 36" (91 cm) door opening • Canopy adjusts at 45, 60, 75 and 90 degree angles 	<ul style="list-style-type: none"> • Curved panels for maximum acoustical performance • Foldable top panel for storage • Removable kicker panel for storage • 60 square feet (5.6 sq m) of shell coverage at 12' (3.7 m) height • 2" (5 cm) gap from floor • Passes through a standard 36" (91 cm) door opening
HEIGHT	13' 3" (4 m)	15' 2" (4.6 m)	11' (2.9 m) to 16' (4.8 m)
STORAGE	Shells nest together for storage, each unit adds 10" (25.4 cm)		Towers nest together for storage, each unit adds 21" (52.5 cm) at 11' height
PANEL MATERIAL	<ul style="list-style-type: none"> • Canopy and middle panel are flat composite panels, 1" (2.5 cm) thick • Lower panel is constructed of 3/4" (1.9 cm) thick composite laminated wood with edgebanding 	<ul style="list-style-type: none"> • Flat composite panel, 1" (2.5 cm) thick with lightweight aluminum edging • 6" (1.8m) wide panel 	<ul style="list-style-type: none"> • Curved composite panel, 1" (2.5 cm) thick with thermofused laminate finish • Lightweight aluminum edging • 5" (1.5 m) wide panel
FINISHES	Oyster laminate only 	Four solid color laminates: Sahara, Oyster, Platinum and Warm Sand 	Any Sherwin Williams paint color or Wilsonart laminates 

LEGACY® ACOUSTICAL SHELLS

LEGACY SHELL SETS - BASIC AND CLASSIC MODELS

Legacy can be configured to accommodate virtually any size performing group. Please call your Wenger rep for help finding the perfect set for your ensembles. Available in tapered and rectangular canopy options.

Wenger®
Your Performance Partner

THREE WAYS TO MAKE YOUR SOUND MORE POWERFUL AND CLEAR – ALL THE WAY TO THE BACK ROW.

Legacy® Basic Acoustical Shell

USAGE

Portable design allows almost any space to become a performance venue with simple one-person setup

PERFORMANCE REQUIREMENTS

- Legacy units promote excellent ensemble and enhance acoustical projection toward the audience
- Add additional shells to cover larger areas

CONSTRUCTION

- Upper panels are flat in standard 1" (2.5 cm) thick. Lower panel is 3/4" (2 cm) thick. All are 6' (1.8 m) wide
- Lower fixed panel is constructed of 3/4" (2 cm) thick composite laminated wood with edgebanding
- Easy, intuitive lift mechanism for raising and lowering shell
- Canopy folds flat for storage, and middle panel overlaps bottom panel
- Legs protrude in front of shell to provide counterweighted base design
- No kicker panel, bottom panel rests 6" (15 cm) from floor
- Canopy is 36" (91 cm) high providing less coverage than Legacy Classic model
- Fully extended height is 13' 3" (4 m)
- Ships fully assembled
- Available in Oyster finish only
- Canopy adjusts to 45, 60, 75 and 90 degree angles
- Tapered Canopy: 296 lbs (134 kg). Rectangular Canopy: 304 lbs (138 kg)
- In storage position, unit fits through a standard 36" (91 cm) door opening
- Folded dimensions are 6' 6" h x 31.5" d (2 m x 80 cm). When multiple units are nested together for storage each additional shell adds 10" (25 cm)

Legacy® Classic Acoustical Shell

USAGE

Portable design allows almost any space to become a performance venue with simple one-person setup

PERFORMANCE REQUIREMENTS

- Legacy units promote excellent ensemble and enhance acoustical projection toward the audience
- Add additional shells to cover larger areas

CONSTRUCTION

- Panels are flat in standard 1" (2.5 cm) construction, 6' (1.8 m) wide
- Improved lift mechanism to raise and lower shell
- Canopy folds flat for storage and is adjustable to 45, 60, 75 and 90 degree angles
- Kicker panel provides coverage within 2' (5 cm) of floor, and folds up for storage
- All panels fit flush with no overlap shadows
- No unsightly exposed fasteners
- Fully extended height is 15' 2" (4.6 m)
- Canopy is 54" (137 cm) high and available in tapered or rectangular design
- In storage position, unit fits through a standard 36" (91 cm) door opening
- Available in four solid color finishes (shown below)
- Includes counterweighted base system, with no legs protruding in front of shell
- Tapered Canopy: 434 lbs (197 kg). Rectangular Canopy: 446 lbs (202 kg)
- Folded dimensions are 6' 6" h x 33.5" d (2 m x 85 cm). When multiple units are nested together for storage each additional shell adds 9.75" (25 cm)

"I cannot believe the difference in sound when the Legacy shell is up. Our gym has very good acoustics, but I can clearly tell whether or not the shell is up. The Legacy shells are very easy to work with – my kids and I can easily handle them."

– Cydney Dixon, Band Director, Lower Lake High School, Lower Lake, California

Four colors available:

1-PERSON SETUP

Roll shell into place.

Lower its kick panel and raise and set the canopy.

Use tool to adjust canopy angle for optimum sound projection.

Turn handle of lift mechanism to set shell height into performance position.

Shells nest together for compact storage.

Legacy® Select Acoustical Shell

USAGE

Portable shell designed to be used primarily with an overhead ceiling system for onstage use.

PERFORMANCE REQUIREMENTS

- Legacy units promote excellent ensemble and enhance acoustical projection toward the audience
- Add additional shells to cover larger areas

CONSTRUCTION

- Curved 1" (2.5 cm) thick panels to provide superior cross-communication of sound
- Use with overhead ceiling system for optimum acoustical performance
- Counterweighted base system
- Panels are tower design, 5' (1.5 m) wide
- Top half of panel folds flat for storage, and includes lift assists to raise and lower
- Kicker panel is removable for nesting and stores on back of tower frame
- Height ranges from 11' to 16' (3.3 m to 4.8 m)
- In storage position, unit fits through a standard 36" (91 cm) door opening
- Available in several paint finishes and woodgrain laminates
- 502 lbs (226 kg)
- Non-marring casters
- Folded dimensions are 6' 6" h x 2' 9 3/4" d (198 cm x 86 cm) at 11' height (3.4 m). When multiple units are nested together for storage each additional shell adds 21" (53 cm)

Many colors available:

FREEDOM & FLEXIBILITY OF 1-PERSON SETUP

Roll tower into place.

Gas-assisted pistons help raise the top panel.

Use tool to raise top panel to its full height.

Remove kicker panel from back of tower.

Set kicker panel in place.

Fasten top and bottom fasteners.

Shells nest together for compact storage.

Snap-in pin sets canopy to any of 4 preferred angles.

Guides allow for smooth height adjustment and stop panel at full height.

A continuous hinge allows canopy to fold and raise easily.

Easy-to-turn handle on the frame raises the shell to the maximum height in just six turns.

Easy-to-turn handle on the frame raises the shell to the maximum height in just six turns.

Magnetic latch holds panels in performance position.

Canopy locks in the desired position.

Panels fit together when in performance position without overlapping.

Easy-to-turn handle on the frame raises the shell to the maximum height in just six turns.

Legacy Classic is available with a rectangular or tapered canopy.

Upper panel latches securely into performance position.

Kicker panel neatly stores on rear of shell.

Upper panel lifts easily with the help of gas assisted pistons.
